I can not think of a better charge to the Class of 1997 than the time worn poem of Edgar Guest:

Somebody said it couldn't be done,
But he, with a chuckle replied
That "maybe it couldn't", but he would be one
Who wouldn't say so 'till he tried.
So be buckled right in with the trace of a grin
on his face. If he, worried, he hid it.

Somebody scoffed: "Oh, you'll never do that;
At least no one has ever done it;
But he took off his coat and he took off his hat,
And the first thing we knew he'd begun it.
With a lift of his chin and a bit of a grin,
Without any doubting or quiddit,
He started to sing as he tackled the thing
that couldn't be done, and he did it.

There are thousands to tell you it can not be done,
There are thousands to prophecy failure;
There are thousands to point out to you, one by one,
The dangers that wait to assail you.
But just buckle in with a bit of a grin,
just take off your coat and go to it;
Just start to sing as you tackle the thing
That "can not be done", and you'll do it.

TO THE MEMBERS OF THE CLASS OF 1997

"Happy are those who dream and are willing
to pay the price to make them come true."

The last four years have provided you, the members of the class of 1997, with many opportunities to make plans and prepare for the future. You have had the chance to dream of what you want to do. Now it is graduation time, are you willing to pay the price to carry out your plans and make your dreams come true?

Yes, I think that many of you can carry out your plans and will make your dreams come true and I wish you every success in your efforts. To those of you who have not yet determined a course of action to follow, it is late but not impossible if you are willing to make a commitment and pay the price to make your dreams come true.

Best wishes

Carroll Higgins
Assistant Principal/Athletic Dir.

TO THE CLASS OF 1997

There are those who will work very hard but because of physical or mental limitations will only rise to a certain height. They can feel pleased and will be a credit to themselves and society. There are those who could go a long way toward being a credit to themselves and to society but will achieve far below their abilities. These are the persons who will likely never be satisfied with anything. They will feel the world is against them; they will feel that they didn't have "the breaks" that the other fellow had. It is "the brakes" they have been using in their own lives that have kept "the breaks" from coming their way.

Briefly, do the best piece of work you can at all times and there will be little reason to feel that you have not had a pleasant and fruitful life.

This was the message in my senior yearbook written by my high school principal. The message is as pertinent today as it was those many years ago. Whatever you choose for your life's work, do the job right. Do it well, have a smile on your face and you will be successful. We can't all be rocket scientists but we can all contribute to mankind in our own special way.

Best wishes

This Life Is Yours
By: Susan Polis Schutz

This life is yours
Believe in yourself
Take the power
to choose what you want to do
and do it well
Take the power
to love what you want in life
and love it honestly
Take the power
to walk in the forest
and be part of nature
Take the power
to control your own life
No one else can do it for you
Nothing is too good for you
You deserve the best
Take the power
to make your life
healthy
exciting
worthwhile
and very happy
Take the power
To create your own dreams
and make them come true

Dedication

The class of 1997 chose to dedicate their yearbook to Mr. Morton for many reasons. Not only is Mr. Morton a continually supportive and encouraging teacher but he also has a cheerful spirit no matter what. Even on days when his "in box" is climbing skyward & it is at the end of the quarter he aims to teach his students something before they walk out the door.

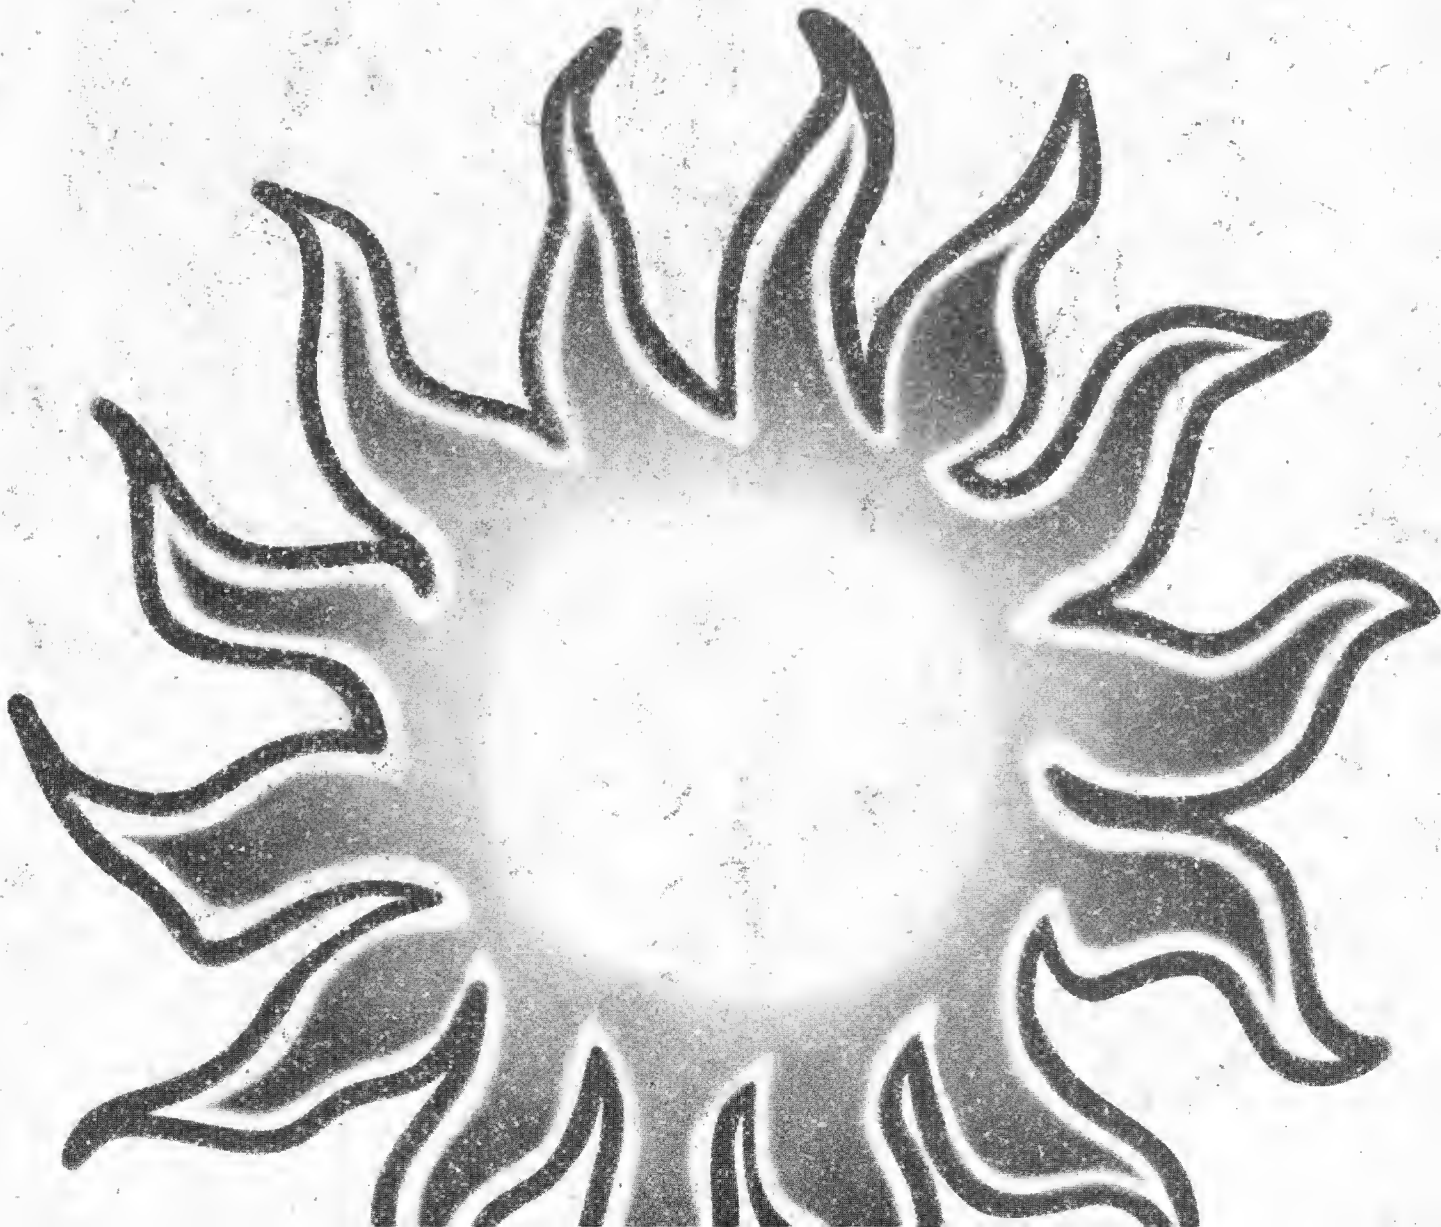

Mr. Morton works very hard to mold his students into "young historians", and simply can't hold back his excitement when someone lives up to their potential.

Always quick to compliment and slow to judge Mr. Morton deserves this honor from his students, for his love of teaching and dedication to his students.

Thank You Mr. Morton,
The Class of 1997

"Rain and the Rhinoceros"

What a thing it is to sit absolutely alone,
in the forest, at night, cherished by this
wonderful, unintelligible,
perfectly innocent speech,
the most confronting speech in the world,
the talk that rain makes by itself over the ridges,
and the talk of the watercourses everywhere in the
hollows!

Nobody started it, nobody is going to stop it.
It will talk as long as it wants, this rain.
As long as it talks I am going to listen.

Life was given to you to live to the fullest and I hope to experience it with all of you. Remember we must "Broaden our Horizons." I hope the last 13 years were only a small fraction of our lives, we made it through, it may not have been easy, but, if life was easy and everyone got what they wanted then it would be boring. I will always remember you and a special thanks to Melinus.

You will hear of me at least once in our life possibly the whole world will also!

While we are born with curiosity and wonder
and our early years full of the adventure
they bring,
I know such inherent joys and often lost.
I also know that, being deep within us,
their latent glow can be fanned to flame again

"To Look At Any Thing"

To look at any thing,
If you would know that thing,
You must look at it long:
To look at this green and say
'I have seen spring in these
woods,' will not do — you must
Be the thing you see:
You must be the dark snakes of
Stems and ferny plumes of leaves,
You must enter in
To the small silences between
The leaves,
You must take your time
And touch the very peace
They issue from.

"The Road Not Taken"

Two roads diverged in a yellow wood,
And sorry I could not travel both
And be one traveler, long I stood
And looked down one as far as I could
To where it bent in the undergrowth;
Then took the other, as just as fair,
And having perhaps the better claim,
Because it was grassy and wanted wear,
Though as for that the passing there
Had worn them really about the same,
And both that morning equally lay
In leaves no step had trodden back.
Oh, I kept the first for another day!
Yet knowing how ways leads on to way,
I doubted if I should ever come back.
I shall be telling this with a sigh
Somewhere ages and ages hence:
Two roads diverged in a wood, and I —
I took the one less traveled by,
And that made all the difference.

"The Story of My Life"

What a joy it is
to feel the soft, springy earth under my feet
once more,
to follow grassy roads that lead to ferny brooks
where I can bathe my fingers in a cataract of rippling
notes,
or to clamber over a stone wall into green fields that
tumble and roll and climb in riotous gladness!

I, being worthy of the title sitaigung, wearer of the red sash, have long studied the teachings of Tamo, Taoism, and the movements of the 18 animal styles, knowing, unlike Tamo, that in time I will never attain the mental state to bore a hole in the side of a cave with my eyes nor will I live to witness the second boxer rebellion, I will, however ascend to the highest level of the tree of life long before your turbulent minds comprehend the existence of such a thing. So I will leave your soul to ponder this ancient principal.

A shaolin practitioner is never an attacker.

This can be interpreted in many ways, but to truly prosper, put yourself in the shaolin's proverbial shoes.

People have called me many things my favorite is Eva. Its okay if K.J. continues to call me Ever though, she's from another planet and she's the only one. There are others that have their special places and names and memories. Some brought a smile to my face and some of your scared the crap out of me like Stephanie she was always being superstitious and had me on the edge of my seat. Tamara if you can believe it taught me how to put on make-up. Megan always made fun of my large lips. Crystal wight you ar so much fun and you love to hug people. Sarah Noll was the sister I never had always together, always having fun. Jessika Rose is always there when you need a friend or a good laugh. Kelli Z. Your smile made humanities bearable. Zachary Bailey, never forget the hours on the phone. Calvin Klein underwear, the 4th of July, The first time I told you I loved you. All the nights you slept on the sun-porch at my dad's house. "Where the Sidewalk Ends"

There is a place where the sidewalk ends
And before the street begins,
And there the grass grows soft and white,
And there the sun burns crimson bright,
And there the moon-bird rests for his flight
To cool in the peppermint wind.

Let us leave this place where the smoke blows black
And the dark street winds and bends.
Past the pits where the asphalt flowers grow
We shall walk with a walk that is measured and slow,
And watch where the chalk-white arrows go
To the place where the sidewalk ends.

Yes we'll walk with a walk that is measured and slow,
And we'll go where the chalk-white arrows go,
For the children, they mark, and the children, they know
The place where the sidewalk ends.

Most of all you have been there for me. You've always given me a place to turn to when I needed to get away. You have truly been great. There is so much that happened in the past four years that I can't even remember it all. But I know that it has only gotten better between us. "The person with the big dreams is more powerful than the one with all the facts." Thank you to anyone who ever cared. We've been here together for some time now and we're now ready to move on. We've been through many things together, here at Telstar and other places as well. We've all had our share of good times and bad times. We try to remember the good and forget the bad. I have had many friends in the past few years, but only a handful of really good friends. I would like to thank all of my really good friends for standing by me when I needed a friend. I Thank you! AT, AS, TS, HI, JA, EG, RT, and a few others. I'll never forget the people I've met and the things I've done with them. We've all enjoyed the time we've been here. Now it is time to move on to new places and to new things. I look back on the past and hope that the future holds sweet dreams that will come true, although some say dreams never come true, I hold tight to my dreams. I wish everyone the best of luck in the future. I pray for all of you still here to do well and finish soon. AS, TS, JE, MP, KW and many others.

From the Heart

Megan:
Precious memories of
the little girl you were
blend with bright im-
ages of the lovely wom-
an you've become.
You fill our hearts with
sunshine, pride, and
love.
Remember we're al-
ways here for you.

LOVE,
MOM & DAD

For my Daughter Jana,

The years have come and gone so fast. I can't believe you're a senior. Watching you grow from an infant, to a beautiful young woman over the years, has been an incredible journey that I'll cherish forever. As well as teaching you over the years, you've taught me as well. It hasn't always been easy for us, but through the years, we've come to share a very special relationship. You have so many wonderful qualities. Most importantly, a tender heart, warm-loving eyes, a smile that lights up my heart and any room, and a vibrant spirit to match. Which-ever path you choose to follow, I will always be there for you. I love you with all my heart, forever and always my "Baby Lish". I'm so proud to have you as my Daughter. "God blessed my greatly when he brought you into my life."

Love,
Mom

Monica,

Our little redhead, almost all grown up. From 9/29/79 @ 7:27 A.M. to now seems like it just flew by. You're here now and ready to face the world. As you end this chapter of your life and start a new one, know in your heart how much your family loves and supports you. In your heart & mind you know what is right, never lose sight of this. Heed the advice of elders as you go in the direction you choose. Don't be afraid to try and fail and try again but never give up. You've always been one who would not follow the crowds. It is better to lead than to follow and if you can't lead then just always be yourself. Remember we'll always be here. We are proud of you & how you have grown. We love you kiddo.

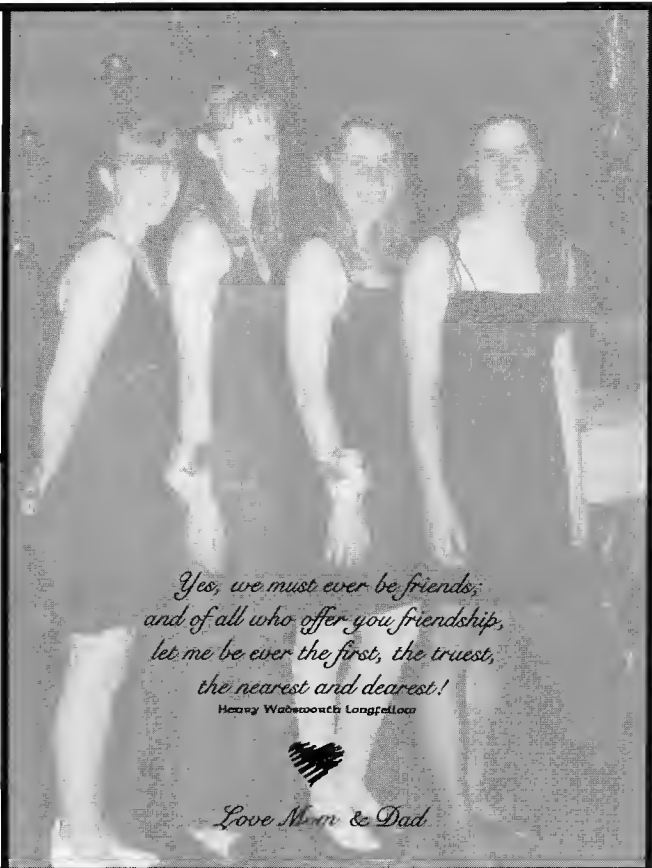

Love, Mama, Craig & Carrie

Nana & Richard

Peter Michael Gordon

You've grown into a wonderful young man. We are all so proud of you. You are a very special person, thank you for being the person you are. This is a time to be grateful for all God has done in our lives. We wish the best for you always.

Love Always,
Mom, Dad,
Matt, Terry & Harley

JV SOCCER Scott Swett

The JV Rebels put forth consistent effort from pre-season to late fall. Our greatest challenge of the season was numeric. We were 16 members strong early in the season but injury and homework reduced us to 13 mid-season. With only two substitutes many games were lost due to fatigue.

As conditioning improved so did the Rebels performance. In the last three games of the season we scored eleven goals making the season total of seventeen. Jason Poirier, Chris Vaughn, Arien Brochu and Jeremy Curley found the back of the net frequently with assistance from Ramsey Harrington, Matt Hiebert and Jason Rosenberg. The defense anchored by goal keeper Thomas Roshto and "Rosey" allowed just 10 goals in as many that many games. Forest Fyrberg, Jeff Chandler, and Jon Shaw were key defenders.

Crisp passing, clutch goals and clear communication were characteristics of the '96 crew. This was demonstrated in our last game by coming from behind and scoring in the last second of the match to tie Carrabec. The season ended with a record of 4 wins, 2 ties and 4 losses.

FIGHT FOR THE BLUE AND WHITE

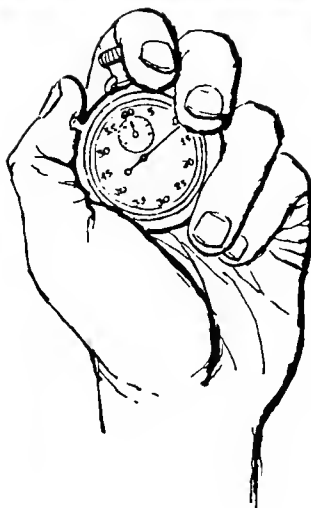

Cross Country Running

The X-C Team had many personal victories as individuals achieved their own PR's, through-out the season. As a team they finished 4th in the MVC. Jason Billings went on to represent Telstar at the State Meet. He also was named to the MVC All-Star Team.

GOLF '96

The first season for Telstar's golf team started well as the Rebels won their first 4 matches. Led by Clint Myers and Neil Thurlow, the first year team did fairly well overall with a 5-6 season record.

Matt Ryerson, Kris Orrok, Alan Russell and Justin Gilbert each contributed to a successful first year.

Co-captain Clint Myers, 7-4, Co-captain Neil Thurlow, 7-4, and Jr. Kris Orrok, 6-3, finished with winning individual records.

The Rebels lost to Jay in the first round playoffs.

At the MVC Championships, held at Natanis Golf Course in Vasselboro, Neil Thurlow qualified for the States with a round of 84. Matt Ryerson and Clint Myers missed the cut of 85 by a few shots. Kris Orrok had a very good front nine, but faltered on the back. At the States, also held at Natanis, Neil shot an 85 and missed being State Class C Runner-up by only two shots. Good job Neil.

It was a good season overall — a valuable experience for all the golfers.

1996-97
Girls' Varsity Basketball

As I write this, we are preparing for our final game of the season against Winthrop. It has been a fantastic year for the team; a year when all of the hard work of previous years has paid off. For most of the season, we have contended for a playoff spot at Augusta. Led by senior captains Beth Howe, Jana Mason, Sarah Richardson, and Sarah Seames, the Rebels set new records for most conference wins in a season and most overall wins in a season by a Telstar girls' team.

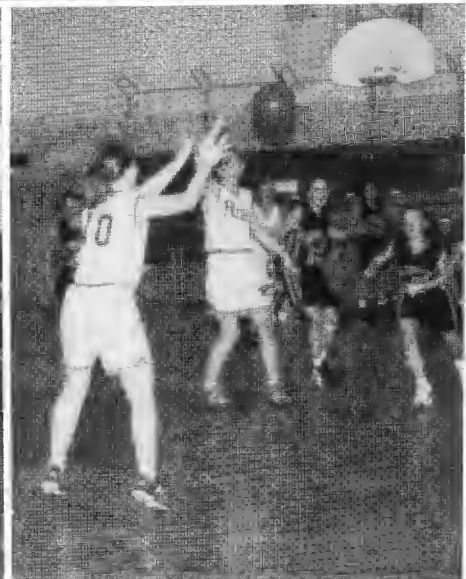

It is a well balanced group. Beth Howe and Sarah Richardson have led the way offensively. Both of them will end up in the record book among the all time top scorers. Jana Mason has led the way on the boards and will end up as the fifth all time leading rebounder. And Sarah Seames has led the way defensively, shutting down some of the conference's leading scorers as well as setting up passers for some of the steals that Sarah R. and Beth have become so noted for.

Rounding out the group are the six sophomores who have contributed so much to the team and who will be the key to future success. They are Mandy Berry, Casey Brown, Erin Osgood, Emily Phillips, Brandy Poland, and Jen Stevens. Jen started with the four seniors. The others allowed us to go to the bench with confidence that there would be no let down in tempo or execution.

"Teamwork" has been their motto. Add to that lots of effort, dedication to learning the game, and the determination to forge ahead against all odds; and you have the formula for their success. They have been good students, good athletes, and true role models.

I am very proud of them.

Respectfully submitted,
Raymond Seames, Head Coach

Telstar's Alpine Ski Team
Coach Beth LaValee

What needs to happen for a ski team to be successful is attitude. It's an attitude that says, "How can I improve?", "Show me how to get better." It's an attitude that goes beyond the "I" to the "We". One that says "We can only be defeated by ourselves", "We want this, therefore, we can do this."

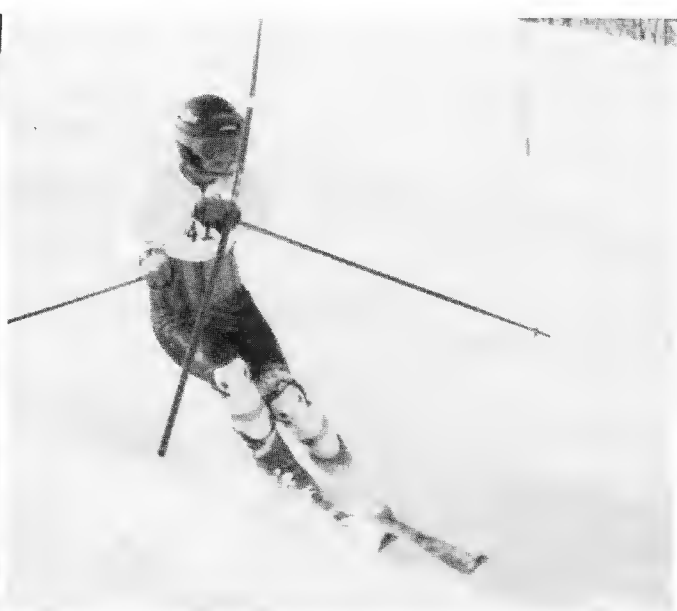

When an individual and a team can focus on improving, making each practice a time to test speed and ability, to continue pushing the edges so there are no boundaries. Then an individual and team can meet their challenges.

The challenges may come from a variety of sources. For example, the newspaper writer that writes, "Telstar will finish in the middle of the pack." The coach who says, "If you put your hands forward you ride the edges through the turns, you'll be unbeatable." The inner drive that says to a skier "I want to be the best on the hill today."

All those little and big challenges that can be met and conquered with the positive attitude, forge the mettle of a skier and the team into a hold that can not be defeated whether or not the race is won or lost.

The Telstar Alpine Skiers, skied with this kind of positive attitude. This season they forged steadily ahead in practice and in every Slalom and Giant Slalom race. There were moments when success seemed out of reach, when a skier fell, missed a gate, or suffered an injury. The attitude never left. Desire and hard work brought individual honors, top place finals, winning team scores, medals, plaques and finally from a few non-believers, respect. For example, the newspaper finally admitted that the Telstar girls & boys were in the running for the State Championship. The girls finished a strong second, and the boys finished third.

The message they leave this season is "We'll be back!" Not discouraged but rather fired by the challenge, their attitudes are positive and their performance not to be denied. It was a remarkable year and the promise of yet another is only 12 short months away.

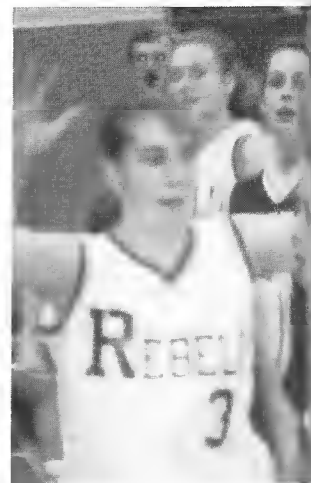

Go Telstar!

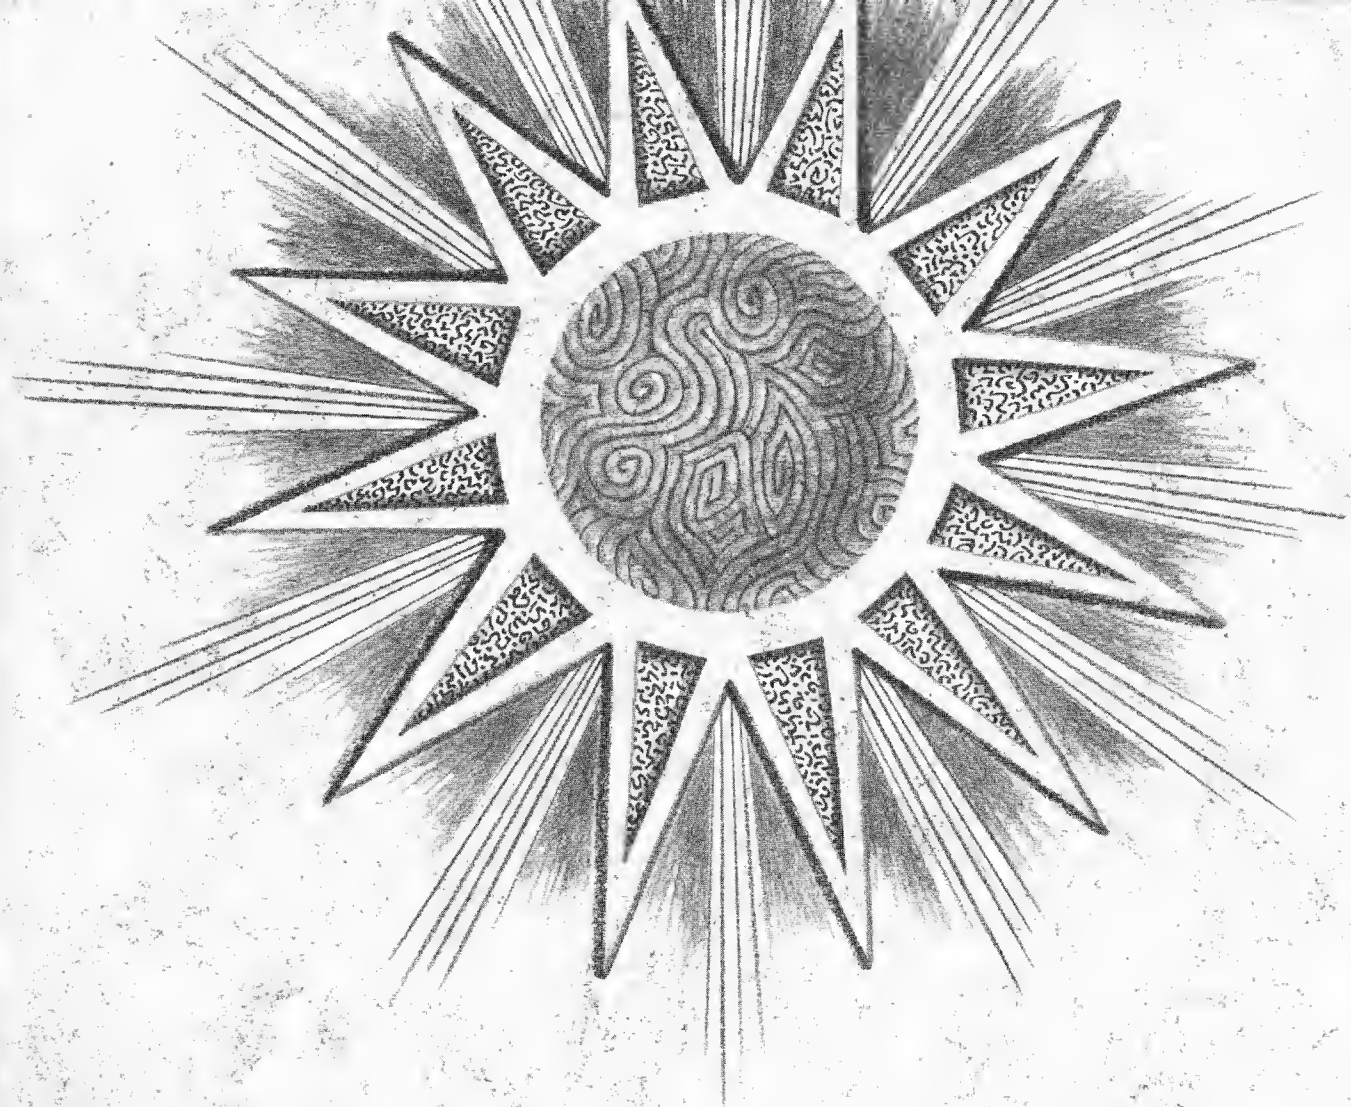

OUR WRESTLER . . .

Scott Lane, Telstar's Wrestler. Scott has placed 2nd at Western Regionals. Making him a State Qualifier with a record of 18-8. Scott is a 4th year Varsity Letterman. He has wrestled in Florida and Korea as well as Maine.

Boise Cascade: To Us Forests Are More Than Trees.

Boise Cascade's foresters care for more than 660,000 acres of forests in northern New England. By nurturing trees from seedlings through their life cycle, we are making sure New England's forests will always be here.

The future of our nation's forest is important to us all. Forests produce necessary wood and paper products. Our forests play a vital ecological role, annually consuming more than one billion tons of carbon dioxide. They add oxygen to the air. They're essential for soil and water quality.

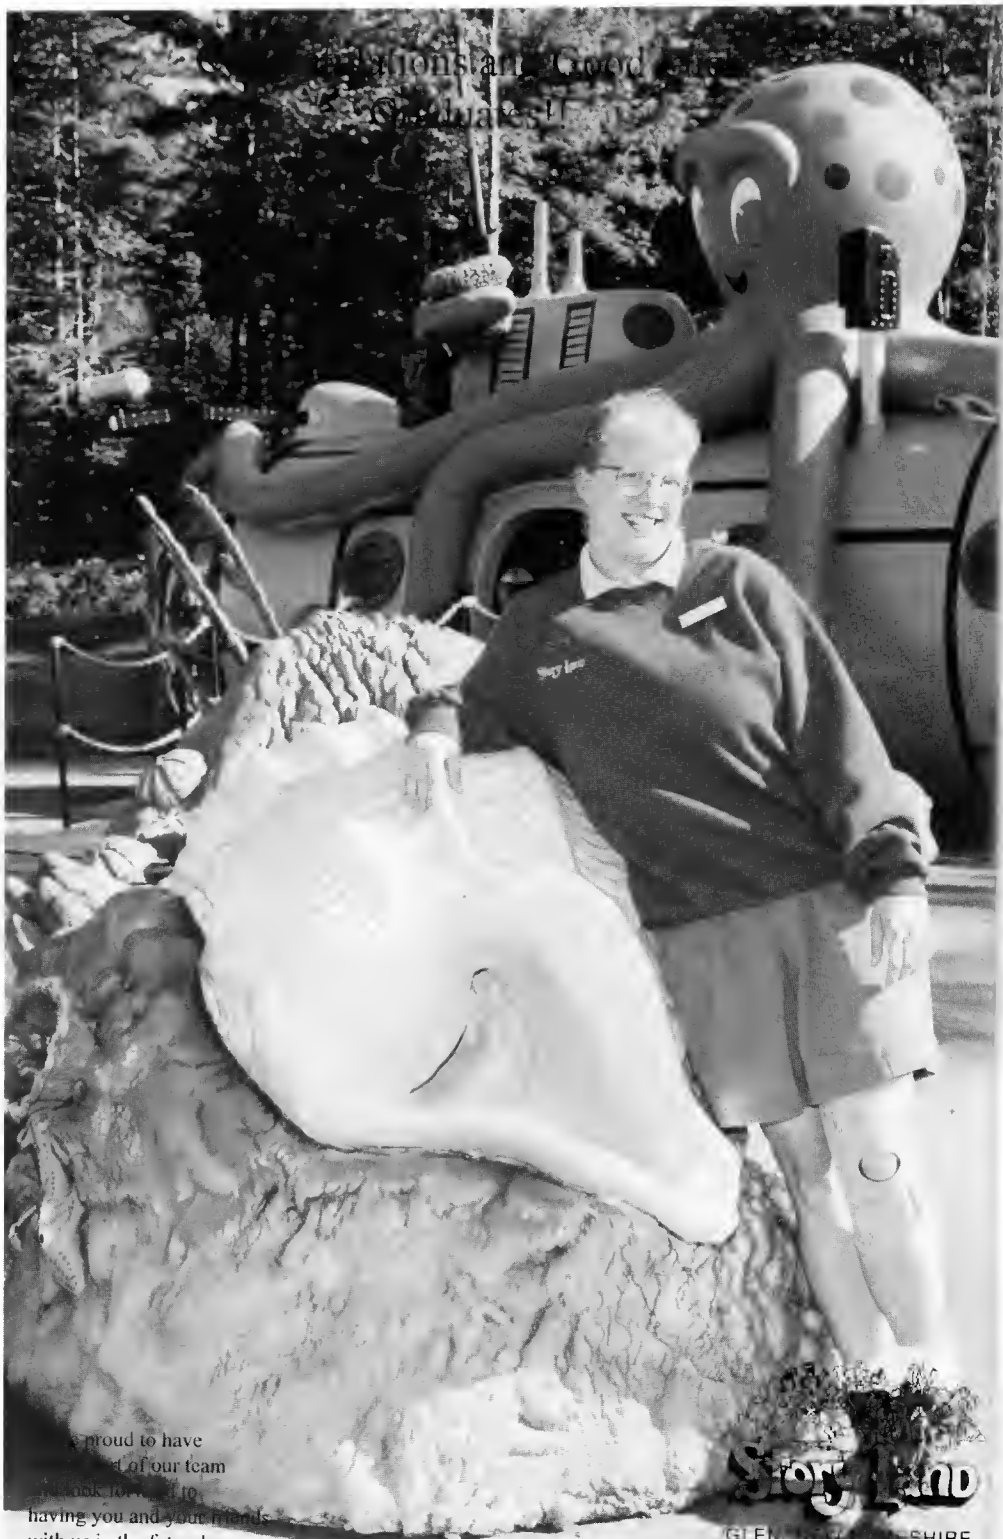

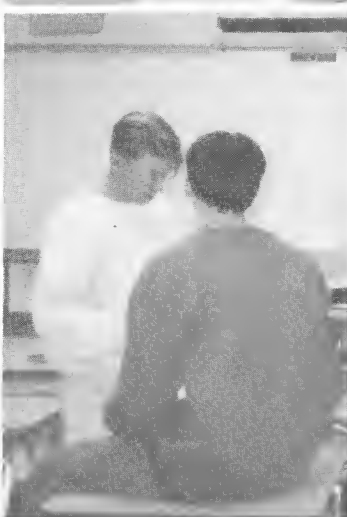

Our nation needs forests for their own sake, as well as the wood they produce. At Boise Cascade we are working to provide both. For more info call us at (207) 369-2819.
